

**SWE 444 Project**  
**Summer Semester 2020**

**Design a website using HTML, CSS and JAVASCRIPT contains at least THREE webpages and maximum FIVE webpages. Any more pages or less pages will affect your degree negatively.**

***The website should fulfill the following requirements:***

1. The idea of the website MUST be related to Hail City. **1.5 Marks**
2. Using different styles of font in each webpage. **1.5 Mark**
3. Using different colors in font, table and headers. **1 Mark**
4. Adding table(s) with span column(s) or row(s). **1.5 Mark**
5. Using input forms such as text box, button, etc. **1 Mark**
6. Using different styles of borders. **1 Mark**
7. Using lists such as ordered, unordered list or description list. **1.5 Mark**
8. Using forms such as Checkboxes Controls, Radio Box Controls or Select Box Controls **1.5 Mark**
9. Adding links and change the style of the link when a mouse goes over it and when click on it. **1.5 Marks**
10. Adding at least three images. **1 Mark**
11. Add a button which shows a welcoming message when the user click on it (using Javascript). **1 Mark**
12. Add a button once is clicked, shows yours names with yours student numbers. **1 Mark**

**Important:**

The website and its content must be meaningful and make sense. The webpages must be connected with each other correctly and meaningfully.

**Instructions:**

1. Every two students should work on one assignment.
2. Make sure to upload all relevant materials that related to the website on the Blackboard. For example in order to run the website on my PC you must upload images that you used and all html files you created.
3. The deadline to submit your project is due to **Wednesday, July 15, 2020 11:59 pm. No projects will be accepted after this date**
